

Dear Pastor,

I would like to recommend Dan & Becky Bennett to you and your Church to present their mission field of Sao Paulo, Brazil a city of about 26 million people. With a city that large there is a desperate need of strong Bible believing churches that are reaching lost Brazilians. They have spent eighteen years as missionaries and as an experienced team they have adapted well to the culture and are fluent in the Portuguese language.

The Bennett's have served in Churches in Curitiba, Osasco and now Sao Paulo, Brazil. They are having a very effective ministry working with the adults and teens in the downtown Sao Paulo ministry. By the way, both Dan & Becky were reared in pastor's homes. They have seven children of which two are in the USA attending Bible College.

Like so many other missionaries, the recession has taken a toll on their financial support. As veteran missionaries it is necessary that they make up for the loss of support due to the down turn in the economy. May I ask you to prayerfully consider having them in your Church to present their field. Can you help? Please consider a special one time offering or a slight raise in monthly support. If you have never supported the Bennett's would you pray about providing them with monthly support? The ministry of Dan and Becky Bennett is a worthy investment of your Church's missions money.

In Christ,
Kenneth Walters, Pastor
